Dear Gavin,

Truly "a trip of a lifetime"! Every aspect of our experience with the African Collection - the quality and the personalized service - was impeccable.

First time travel to Africa is surely an unknown but your professional and knowledgeable meet/greet and guide services provided a personal comfort level of "no worries/no hassles". A unique situation - on any continent!

From the choice of accommodations in Cape Town, the Winelands and safari camps to the Blue Train to Zimbabwe (Victoria Falls) and Botswana we were able to experience first hand the beauty of the country and the friendliness of the people.

Thanks to your attention to every detail at every point in the itinerary a little dust of Africa has settled in our hearts- only beckoning us to return again soon.

More Americans need to open their eyes and minds to the personalized itineraries, quality service and safety that the African Collection can provide. We won't ever forget it!

Thanks again for everything.

Sincerely,
